NEWS RELEASE

AMITY FIRE DISTRICT ACQUIRES NEW MEDICAL EQUIPMENT AND SUPPLIES.

Amity Fire District is proud to announce the acquisition of new medical equipment and supplies. Over the last two months Amity Fire District has been actively working on upgrading our medical bags and supplies. The new EMS kits will allow Amity Fire District to be able to provide a more flexible response to EMS type calls. In the past we had medical supplies on our primary rescue unit located at the Amity Fire District headquarters inside the Amity city limits as well as on our first out engine, and our first out Brush rig located at our Perrydale substation. We are now able to have a medical kit on all of our first line apparatus as well as being able to upgrade the medical kit that is carried by our Fire Chief. The purchase of these supplies and bags came to \$2500.00 and was purchased solely using funds from our EMS memorial fund, these funds are donated to the district from family members of those that have passed on but would have wanted to make a donation in memory of their loved ones to help the district purchase needed medical supplies. We are extremely grateful for the support that we continuously receive from the community, we look forward to the quality of service that we are going to now be able to provide using these new supplies.
